Dr. Sean (Xuguang) Li was trained as a physician in Medical College of Soochow University, China. He obtained his PhD from McGill University, Montreal, Canada. . He did his post-doctoral fellowship at Harvard Medical School, Boston, MA, USA before he joined Health Canada in 2000.

At the federal government of Canada, Dr. Li's research work has been focussed on development of new technologies for the analyses of biotherapeutics and vaccines; investigation of potential adverse reactions associated with vaccines; determination of biomarkers for the analyses of immune responses to vaccines; contribution to international collaborations for the development of new assays for vaccines and biotherapeutic products.

Dr. Li holds cross-appointment Professorship at Faculty of Medicine, University of Ottawa, where he teaches advanced immunology and supervises undergraduates and graduate students in their research studies of virus-induced disease and vaccine-elicited immune responses. He has published over 100 papers in peer-reviewed international journals
